Membership is an idea that focusses on the ability to feel part of a close-knit community that you are able to contribute to as well as benefit from. Our Centre thrives from the many volunteers who generously give their time, and as a member it will offer further benefits to that connection.

Through the membership, this sense of belonging, it has the importance of the spiritual enhancement and connection with our centres teachers and spiritual heads.

All members have voting rights and can be nominated to join the board. Other privileges include priority inclusion in retreats, important visits, special events and discount rates on products.

Members will get to experience the many benefits we offer, as well as being able to see the contribution they make manifest before them as our Centre grows and flourishes.
